

EGG DONOR CONSENT
ANONYMOUS VS NON-ANONYMOUS

ANONYMOUS:

I am agreeing to this egg donation in an anonymous fashion. This means that neither do I know the identity of the recipient, or does she know mine. I will make no effort to discover the identity of the recipient, or do I wish that the recipient would know mine.

Donor's Name

Donor's Signature

Date

ANONYMOUS WITH WILLINGNESS TO MEET CHILD:

Whereas I wish to remain anonymous for now, if the child or children that result from this donation wish to find me in the future, I am willing to be contacted at that time by Overlake Reproductive Health to meet with the child or children. This does not in any way imply that I wish or consent to a parental relationship with the child or children.

NON-ANONYMOUS:

I agree to donate my eggs to _____. Even though the recipient and I know each other's identity, this does not in any way imply that I wish or consent to a parental relationship with the resulting child or children. The recipient has full control over the future disposition of any and all eggs that I donate to her as a non-anonymous donation.
